AND FUTURE FOOD

### Bella Italia

At Stuttgart's Sicilian Bella Italia restaurant and wine shop, local architecture firm Ippolito Fleitz Group designed interiors in the spirit of a Renaissance Alice in Wonderland, lining ceilings and walls with more than 90 gilt-framed mirrors and circling tables with caned chairs in a spectrum of violet hues. Wine racks feature softly rounded corners while black-and-white photographs and white pendant lamps are clustered in homey profusion. Warm grey walls are complimented with classic dark wood furniture and, in one room, an unusual purple and mustard tartan wallpaper.
