mirror mirror on the ceiling..which Winery's the beautiest of them all?

## Bella Italia Weine

Bella Italia is a wine store as well as a restaurant. The owner is a typical warmhearted Sicilian woman. While selling the products of her home country and offering a creative home-style cuisine on an upscale level she transfers the Italian spirit to Germany. "Bella Italia Weine" was run for many years in a small living-room-like place with a very personal atmosphere. To extend the sales area as well as the capacity of seats she decided to move to a new location. The new restaurant is located in Stuttgart West, an urban district which is very popular as a housing area as well as a location for offices working in a creative field. The restaurant is situated in the ground floor of a freestanding multiple dwelling in a charming Wilhelminian style.
